

Liberty School District

COVID-19 Prevention
Program (CPP)
1-20-2021 School Year

January 25, 2021

Model COVID-19 Prevention Program (CPP)

With some exceptions, all employers and places of employment are required to establish and implement an effective written COVID-19 Prevention Program (CPP) pursuant to an Emergency Temporary Standard in place for COVID-19 (California Code of Regulations (CCR), Title 8, section 3205(c)). Cal/OSHA has developed this model program to assist employers with creating their own unique CPP tailored to their workplace.

Employers are not required to use this program. Employers may create their own program or use another CCP template. Employers can also create a written CCP by incorporating elements of this program into their existing Injury and Illness Prevention Program (IIPP), if desired. Cal/OSHA encourages employers to engage with employees in the design, implementation and evolution of their COVID-19 Prevention Program.

Using this model alone does not ensure compliance with the emergency temporary standard. To use this model program effectively, the person(s) responsible for implementing the CPP should carefully review:

- All of the elements that may be required in the following CCR, Title 8 sections:
 - 3205, COVID-19 Prevention
 - 3205.1, Multiple COVID-19 Infection and COVID-19 Outbreaks
 - 3205.2, Major COVID-19 Outbreaks
 - 3205.3, Prevention in Employer-Provided Housing
 - 3205.4, COVID-19 Prevention in Employer-Provided Transportation to and from Work
 - The four Additional Considerations provided at the end of this program to see if they are applicable to your workplace.
- The additional guidance materials available at www.dir.ca.gov/dosh/coronavirus/

COVID-19 Prevention Program (CPP) for Liberty Elementary School District

This CPP is designed to control exposures to the SARS-CoV-2 virus that may occur in our workplace.

Date: January 22, 2021

Authority and Responsibility

The District Superintendent has overall authority and responsibility for implementing the provisions of this CPP in our workplace. In addition, all managers and supervisors are responsible for implementing and maintaining the CPP in their assigned work areas and for ensuring employees receive answers to questions about the program in a language they understand.

All employees are responsible for using safe work practices, following all directives, policies and procedures, and assisting in maintaining a safe work environment.

Identification and Evaluation of COVID-19 Hazards

We will implement the following in our workplace:

- Conduct workplace-specific evaluations using the Sonoma County School Reopening Checklist and **Appendix A: Identification of COVID-19 Hazards** form.
- Evaluate employees' potential workplace exposures to all persons at, or who may enter, our workplace.
- Review applicable orders and general and industry-specific guidance from the State of California, Cal/OSHA, and the local health department related to COVID-19 hazards and prevention.
- Evaluate existing COVID-19 prevention controls in our workplace and the need for different or additional controls.
- Conduct periodic inspections using the **Appendix B: COVID-19 Inspections form** as needed to identify unhealthy conditions, work practices, and work procedures related to COVID-19 and to ensure compliance with our COVID-19 policies and procedures.

Employee participation

Creating the Plan: The LESD task force for COVID-19 met throughout the summer with 7 stakeholders to create a plan that was both workable and feasible for our District. This plan was approved by the Board in August of 2020.

Employees and their authorized employees' representatives are encouraged to participate in the identification and evaluation (I and E) of COVID-19 hazards by: **Employees and their representatives are encouraged to participate in the I and E of COVID-19 hazards by informing the District/School COVID-19 Coordinator of any known or possible hazards. The District/School requires face masks of all staff while on campus. We expect social distancing of 6 feet whenever possible. Hand sanitation is required and cleaning stations are available in all rooms. Room cleaning is throughout the day and all staff are expected to disinfect any public equipment they use.**

Employee screening

We screen our employees by: **All employees are expected to self-screen as per the CDPH guidelines. Masks are required of all employees at all times, unless eating or drinking and during that time they must maintain 6 feet of distance from others. During any on-campus temperature checks, non-contact thermometers are used. Employees will be tested every two months prior to students returning to campus and weekly through our contract with Quest Labs.**

Correction of COVID-19 Hazards

Unsafe or unhealthy work conditions, practices or procedures will be documented on the **Appendix B: COVID-19 Inspections** form, and corrected in a timely manner based on the severity of the hazards, as follows:

The severity of the hazard will be assessed and correction time frames assigned, accordingly.

Individuals are identified as being responsible for timely correction are the Lead Custodian/COVID-19 Coordinator/Principal.

Follow-up measures are taken to ensure timely correction that include a sign-off and date on Appendix B that the correction has been made.

Control of COVID-19 Hazards

Physical Distancing

Where possible, we ensure at least six feet of physical distancing at all times in our workplace by:

- **Eliminating the need for workers to be in the workplace – e.g., telework or other remote work arrangements.**
- **Reducing the number of persons in an area at one time, including visitors.**
- **Visual cues such as signs and floor markings to indicate where employees and others should be located or their direction and path of travel.**
- **Staggered arrival, departure, work, and break times.**
- **Adjusted work processes or procedures, such as reducing production speed, to allow greater distance between employees.**
- **Reference section 3205(c)(6) for details]**

Individuals will be kept as far apart as possible when there are situations where six feet of physical distancing cannot be achieved.

Face Coverings

Employees will use their own face coverings or District provided face coverings. We will ensure they are properly worn by employees over the nose and mouth when indoors, and when outdoors and less than six feet away from another person, including non-employees, and where required by orders from the California Department of Public Health (CDPH) or local health department. **In addition, the District has provided face shields to be worn over a face covering for added protection. Failure to comply results in being asked to leave the campus.**

The following are exceptions to the use of face coverings in our workplace:

- When an employee is alone in a room.
- While eating and drinking at the workplace, provided employees are at least six feet apart and outside air supply to the area, if indoors, has been maximized to the extent possible.
- Employees wearing respiratory protection in accordance with CCR Title 8 section 5144 or other safety orders.
- Employees who cannot wear face coverings due to a medical or mental health condition or disability, or who are hearing-impaired or communicating with a hearing-impaired person. Alternatives will be considered on a case-by-case basis.
- Specific tasks that cannot feasibly be performed with a face covering, where employees will be kept at least six feet apart.

Any employee not wearing a face covering, face shield with a drape or other effective alternative, or respiratory protection, for any reason, shall be at least six feet apart from all other persons unless the unmasked employee is tested at least twice weekly for COVID-19.

Engineering controls

We implement the following measures for situations where we cannot maintain at least six feet between individuals: **Plexiglass partitions were created and installed for each office and for student testing stations and available for small group use in classrooms.**

We maximize, to the extent feasible, the quantity of outside air for our buildings with mechanical or natural ventilation systems by:

- **Ensuring that windows are open. For circumstances where the amount of outside air needs to be minimized due to other hazards, such as heat and wildfire smoke, filters will be changed as needed and air purifiers are provided in all rooms.**
- **The ventilation system is properly maintained and adjusted. All systems have been checked to be in working order and will be monitored for proper operation.**
- **The District recently upgraded all ventilation systems to add the I-wave technology to further reduce the chance that bacteria and viruses could pass through our HEPA filtrations systems.**

Cleaning and disinfecting

We implement the following cleaning and disinfection measures for frequently touched surfaces:

- **Ensuring adequate supplies and adequate time for it to be done properly.**
- **Informing the employees and authorized employee representatives of the frequency and scope of cleaning and disinfection.**
- **Purchasing and using a disinfecting steam cleaning system for frequent cleaning of high touch areas around the campus.**
- **Purchasing of I-wave technology for our HVAC systems to further clean the air.**
- **Purchasing adequate supplies to keep all rooms fully stocked with cleaning materials.**

Should we have a COVID-19 case in our workplace, we will implement the following procedures: **Trained maintenance personnel will clean the rooms with the outlined procedures. We will avoid use of the room, if possible, during the risk period. Following that, trained maintenance staff will clean the room(s) including the use of:**

- **The disinfecting steam system,**
- **Extra air purifiers will be used,**
- **All surfaces will be wiped down using disinfectants.**

Cleaning schedules have been established for disinfecting during the day and to provide increased cleaning and disinfecting. A basic schedule includes:

- **Classrooms: Daily disinfecting by custodians,**
- **Offices: Daily disinfecting by custodians,**
- **Indoor/Outdoor Common Areas: Daily disinfecting by custodians,**
- **Restrooms: Disinfecting hourly during school day and full cleaning each day.**

Shared tools, equipment and personal protective equipment (PPE)

PPE must not be shared, e.g., gloves, goggles and face shields.

Items that employees come in regular physical contact with, such as phones, headsets, desks, keyboards, writing materials, instruments and tools must also not be shared, to the extent feasible. Where there must be sharing, the items will be disinfected between uses by **the user using available disinfectant wipes.**

Hand sanitizing

In order to implement effective hand sanitizing procedures, we:

- **Evaluating handwashing facilities to ensure they are clean and contain proper supplies in sufficient quantities.**
- **Determining the need for additional facilities.**
- **Encouraging and allowing time for employee handwashing.**
- **Providing employees with an effective hand sanitizer, and prohibit hand sanitizers that contain methanol (i.e., methyl alcohol).**
- **Encouraging employees to wash their hands for at least 20 seconds each time.**

Personal protective equipment (PPE) used to control employees' exposure to COVID-19

We evaluate the need for PPE (such as gloves, goggles, and face shields) as required by CCR Title 8, section 3380, and provide such PPE as needed.

When it comes to respiratory protection, we evaluate the need in accordance with CCR Title 8 section 5144 when the physical distancing requirements are not feasible or maintained. **[reference section 3205(c)(E) for details on required respirator and eye protection use.]**

We provide and ensure use of eye protection and respiratory protection in accordance with section 5144 when employees are exposed to procedures that may aerosolize potentially infectious material.

Investigating and Responding to COVID-19 Cases

This will be accomplished by using the **Appendix C: Investigating COVID-19 Cases** form.

Employees who had potential COVID-19 exposure in our workplace will be:

- **Offered COVID-19 testing at no cost during their working hours.**
- **The information on benefits described in Training and Instruction, and Exclusion of COVID-19 Cases, below, will be provided to them.**

System for Communicating

Our goal is to ensure that we have effective two-way communication with our employees, in a form they can readily understand, and that it includes the following information:

- Who employees should report COVID-19 symptoms and possible hazards to,
- That employees can report symptoms and hazards without fear of reprisal.
- Our procedures or policies for accommodating employees with medical or other conditions that put them at increased risk of severe COVID-19 illness.
- Where testing is not required, employees can still access testing through our Quest Labs testing system. The staff member is informed of their testing slot through a weekly email directly to them explaining the process.
- In the event we are required to provide testing because of a workplace exposure or outbreak, we will communicate the plan for providing testing and inform affected employees of the reason for the testing and the possible consequences of a positive test. **Testing will be provided at no cost to the employee during working hours, including when the testing is in response to CCR Title 8 section 3205.1, Multiple COVID-19 Infections and COVID-19 Outbreaks, as well as section 3205.2, Major COVID-19 Outbreaks**
- Information about COVID-19 hazards employees (including other employers and individuals in contact with our workplace) may be exposed to, what is being done to control those hazards, and our COVID-19 policies and procedures.
- **When there is a work exposure, possibly affecting employees will be notified via letter which is emailed to them. They may also receive a phone call or text.**

Training and Instruction

We will provide effective training and instruction that includes:

- Our COVID-19 policies and procedures to protect employees from COVID-19 hazards.
- Information regarding COVID-19-related benefits to which the employee may be entitled under applicable federal, state, or local laws.
- The fact that:
 - COVID-19 is an infectious disease that can be spread through the air.
 - COVID-19 may be transmitted when a person touches a contaminated object and then touches their eyes, nose, or mouth.
 - An infectious person may have no symptoms.
- Methods of physical distancing of at least six feet and the importance of combining physical distancing with the wearing of face coverings.
- The fact that particles containing the virus can travel more than six feet, especially indoors, so physical distancing must be combined with other controls, including face coverings and hand hygiene, to be effective.
- The importance of frequent hand washing with soap and water for at least 20 seconds and using hand sanitizer when employees do not have immediate access to a sink or hand washing facility, and that hand sanitizer does not work if the hands are soiled.
- Proper use of face coverings and the fact that face coverings are not respiratory protective equipment - face coverings are intended to primarily protect other individuals from the wearer of the face covering.
- COVID-19 symptoms, and the importance of obtaining a COVID-19 test and not coming to work if the employee has COVID-19 symptoms.
- **Training is conducted via the Target Solutions COVID-19 module and a COVID-19 training roster will be used to document this training.**

Appendix D: COVID-19 Training Roster will be used to document this training.

Exclusion of COVID-19 Cases

Where we have a COVID-19 case in our workplace, we will limit transmission by:

- Ensuring that COVID-19 cases are excluded from the workplace until our return-to-work requirements are met.
- Excluding employees with COVID-19 exposure from the workplace for 14 days after the last known COVID-19 exposure to a COVID-19 case.
- For employees who are able to work but are excluded after a positive case, ordered to isolate, or exposed, we will continue an employee's earnings, seniority, and all other employee rights and benefits whenever we've demonstrated that the COVID-19 exposure is work related. This will be accomplished by **employer-provided employee sick leave benefits, payments from public sources or other means of maintaining earnings, rights and benefits, where permitted by law and when not covered by workers' compensation.**
- Providing employees at the time of exclusion with information on available benefits.

Reporting, Recordkeeping, and Access

It is our policy to:

- Report information about COVID-19 cases at our workplace to the local health department whenever required by law, and provide any related information requested by the local health department.
- Report immediately to Cal/OSHA any COVID-19-related serious illnesses or death, as defined under CCR Title 8 section 330(h), of an employee occurring in our place of employment or in connection with any employment.
- Maintain records of the steps taken to implement our written COVID-19 Prevention Program in

accordance with CCR Title 8 section 3203(b).

- Make our written COVID-19 Prevention Program available at the workplace to employees, authorized employee representatives, and to representatives of Cal/OSHA immediately upon request.
- Use the **Appendix C: Investigating COVID-19 Cases** form to keep a record of and track all COVID-19 cases. The information will be made available to employees, authorized employee representatives, or as otherwise required by law, with personal identifying information removed.

Return-to-Work Criteria

- COVID-19 cases with COVID-19 symptoms will not return to work until all the following have occurred:
 - At least 24 hours have passed since a fever of 100.4 or higher has resolved without the use of fever-reducing medications.
 - COVID-19 symptoms have improved.
 - At least 10 days have passed since COVID-19 symptoms first appeared.
 - COVID-19 cases who tested positive but never developed COVID-19 symptoms will not return to work until a minimum of 10 days have passed since the date of specimen collection of their first positive COVID-19 test.
 - A negative COVID-19 test will not be required for an employee to return to work.
 - If an order to isolate or quarantine an employee is issued by a local or state health official, the employee will not return to work until the period of isolation or quarantine is completed or the order is lifted. If no period was specified, then the period will be 10 days from the time the order to isolate was effective, or 14 days from the time the order to quarantine was effective.
-

Superintendent/1/25/21

Appendix A: Identification of COVID-19 Hazards

All persons, regardless of symptoms or negative COVID-19 test results, will be considered potentially infectious. Particular attention will be paid to areas where people may congregate or come in contact with one another, regardless of whether employees are performing an assigned work task or not. For example: meetings, entrances, bathrooms, hallways, aisles, walkways, elevators, break or eating areas, cool-down areas, and waiting areas.

Evaluation of potential workplace exposure will be to all persons at the workplace or who may enter the workplace, including coworkers, employees of other entities, members of the public, customers or clients, and independent contractors. We will consider how employees and other persons enter, leave, and travel through the workplace, in addition to addressing fixed work locations.

Person conducting the evaluation: **[enter name(s)]**

Date: **[enter date]**

Name(s) of employee and authorized employee representative that participated: **[enter name(s)]**

Interaction, area, activity, work task, process, equipment and material that potentially exposes employees to COVID-19 hazards	Places and times	Potential for COVID-19 exposures and employees affected, including members of the public and employees of other employers	Existing and/or additional COVID-19 prevention controls, including barriers, partitions and ventilation

Appendix B: COVID-19 Inspections

[This form is only intended to get you started. Review the information available at www.dir.ca.gov/dosh/coronavirus/ for additional guidance on what to regularly inspect for, including issues that may be more pertinent to your particular type of workplace. You will need to modify form accordingly.]

Date: [enter date]

Name of person conducting the inspection: [enter names]

Work location evaluated: [enter information]

Exposure Controls	Status	Person Assigned to Correct	Date Corrected
Engineering			
Barriers/partitions			
Ventilation (amount of fresh air and filtration maximized)			
Additional room air filtration			
[add any additional controls your workplace is using]			
[add any additional controls your workplace is using]			
Administrative			
Physical distancing			
Surface cleaning and disinfection (frequently enough and adequate supplies)			
Hand washing facilities (adequate numbers and supplies)			
Disinfecting and hand sanitizing solutions being used according to manufacturer instructions			
[add any additional controls your workplace is using]			
[add any additional controls your workplace is using]

Appendix C: Investigating COVID-19 Cases

All personal identifying information of COVID-19 cases or symptoms will be kept confidential. All COVID-19 testing or related medical services provided by us will be provided in a manner that ensures the confidentiality of employees, with the exception of unredacted information on COVID-19 cases that will be provided immediately upon request to the local health department, CDPH, Cal/OSHA, the National Institute for Occupational Safety and Health (NIOSH), or as otherwise required by law.

All employees' medical records will also be kept confidential and not disclosed or reported without the employee's express written consent to any person within or outside the workplace, with the following exceptions: (1) Unredacted medical records provided to the local health department, CDPH, Cal/OSHA, NIOSH, or as otherwise required by law immediately upon request; and (2) Records that do not contain individually identifiable medical information or from which individually identifiable medical information has been removed.

Date: [enter date]

Name of person conducting the investigation: [enter name(s)]

Employee (or non-employee*) name:		Occupation (if non-employee, why they were in the workplace):	
Location where employee worked (or non-employee was present in the workplace):		Date investigation was initiated:	
Was COVID-19 test offered?		Name(s) of staff involved in the investigation:	
Date and time the COVID-19 case was last present in the workplace:		Date of the positive or negative test and/or diagnosis:	
Date the case first had one or more COVID-19 symptoms:		Information received regarding COVID-19 test results and onset of symptoms (attach documentation):	

Results of the evaluation of the COVID-19 case and all locations at the workplace that may have been visited by the COVID-19 case during the high-risk exposure period, and who may have been exposed (attach additional information):

Notice given (within one business day, in a way that does not reveal any personal identifying information of the COVID-19 case) of the potential COVID-19 exposure to:			
All employees who may have had COVID-19 exposure and their authorized representatives.	Date:		
	Names of employees that were notified:		
Independent contractors and other employers present at the workplace during the high-risk exposure period.	Date:		
	Names of individuals that were notified:		
What were the workplace conditions that could have contributed to the risk of COVID-19 exposure?		What could be done to reduce exposure to COVID-19?	
Was local health department notified?		Date:	

*Should an employer be made aware of a non-employee infection source COVID-19 status.

Additional Consideration #1

Multiple COVID-19 Infections and COVID-19 Outbreaks

[This section will need to be added to your CPP if your workplace is identified by a local health department as the location of a COVID-19 outbreak, or there are three or more COVID-19 cases in your workplace within a 14-day period. Reference section [3205.1](#) for details.]

This section of CPP will stay in effect until there are no new COVID-19 cases detected in our workplace for a 14-day period.

COVID-19 testing

- We will provide COVID-19 testing to all employees in our exposed workplace except for employees who were not present during the period of an outbreak identified by a local health department or the relevant 14-day period. COVID-19 testing will be provided at no cost to employees during employees' working hours.
- COVID-19 testing consists of the following:
 - All employees in our exposed workplace will be immediately tested and then tested again one week later. Negative COVID-19 test results of employees with COVID-19 exposure will not impact the duration of any quarantine period required by, or orders issued by, the local health department.
 - After the first two COVID-19 tests, we will continue to provide COVID-19 testing of employees who remain at the workplace at least once per week, or more frequently if recommended by the local health department, until there are no new COVID-19 cases detected in our workplace for a 14-day period.
 - We will provide additional testing when deemed necessary by Cal/OSHA.

Exclusion of COVID-19 cases

We will ensure COVID-19 cases and employees who had COVID-19 exposure are excluded from the workplace in accordance with our CPP **Exclusion of COVID-19 Cases** and **Return to Work Criteria** requirements, and local health officer orders if applicable.

Investigation of workplace COVID-19 illness

We will immediately investigate and determine possible workplace-related factors that contributed to the COVID-19 outbreak in accordance with our CPP **Investigating and Responding to COVID-19 Cases**.

COVID-19 investigation, review and hazard correction

In addition to our CPP **Identification and Evaluation of COVID-19 Hazards** and **Correction of COVID-19 Hazards**, we will immediately perform a review of potentially relevant COVID-19 policies, procedures, and controls and implement changes as needed to prevent further spread of COVID-19.

The investigation and review will be documented and include:

- Investigation of new or unabated COVID-19 hazards including:
 - Our leave policies and practices and whether employees are discouraged from remaining home when sick.
 - Our COVID-19 testing policies.
 - Insufficient outdoor air.
 - Insufficient air filtration.
 - Lack of physical distancing.
- Updating the review:
 - Every thirty days that the outbreak continues.
 - In response to new information or to new or previously unrecognized COVID-19 hazards.
 - When otherwise necessary.

- Implementing changes to reduce the transmission of COVID-19 based on the investigation and review. We will consider:
 - Moving indoor tasks outdoors or having them performed remotely.
 - Increasing outdoor air supply when work is done indoors.
 - Improving air filtration.
 - Increasing physical distancing as much as possible.
 - Respiratory protection.
 - [describe other applicable controls].

Notifications to the local health department

- Immediately, but no longer than 48 hours after learning of three or more COVID-19 cases in our workplace, we will contact the local health department for guidance on preventing the further spread of COVID-19 within the workplace.
- We will provide to the local health department the total number of COVID-19 cases and for each COVID-19 case, the name, contact information, occupation, workplace location, business address, the hospitalization and/or fatality status, and North American Industry Classification System code of the workplace of the COVID-19 case, and any other information requested by the local health department. We will continue to give notice to the local health department of any subsequent COVID-19 cases at our workplace.

Additional Consideration #2

Major COVID-19 Outbreaks

[This section will need to be added to your CPP should your workplace experience 20 or more COVID-19 cases within a 30-day period. Reference section [3205.2](#) for details.]

This section of CPP will stay in effect until there are no new COVID-19 cases detected in our workplace for a 14-day period.

COVID-19 testing

We will provide twice a week COVID-19 testing, or more frequently if recommended by the local health department, to all employees present at our exposed workplace during the relevant 30-day period(s) and who remain at the workplace. COVID-19 testing will be provided at no cost to employees during employees' working hours.

Exclusion of COVID-19 cases

We will ensure COVID-19 cases and employees with COVID-19 exposure are excluded from the workplace in accordance with our CPP **Exclusion of COVID-19 Cases** and **Return to Work Criteria**, and any relevant local health department orders.

Investigation of workplace COVID-19 illnesses

We will comply with the requirements of our CPP **Investigating and Responding to COVID-19 Cases**.

COVID-19 hazard correction

In addition to the requirements of our CPP **Correction of COVID-19 Hazards**, we will take the following actions:

- In buildings or structures with mechanical ventilation, we will filter recirculated air with Minimum Efficiency Reporting Value (MERV) 13 or higher efficiency filters if compatible with the ventilation system. If MERV-13 or higher filters are not compatible with the ventilation system, we will use filters with the highest compatible filtering efficiency. We will also evaluate whether portable or mounted High Efficiency Particulate Air (HEPA) filtration units, or other air cleaning systems would reduce the risk of transmission and implement their use to the degree feasible.
- We will determine the need for a respiratory protection program or changes to an existing respiratory protection program under CCR Title 8 section 5144 to address COVID-19 hazards.
- We will evaluate whether to halt some or all operations at our workplace until COVID-19 hazards have been corrected
- Implement any other control measures deemed necessary by Cal/OSHA.

Notifications to the local health department

We will comply with the requirements of our **Multiple COVID-19 Infections** and **COVID-19 Outbreaks-Notifications to the Local Health Department**.
